

# Women's Health and Cancer Rights Notice

The federal government mandates certain health coverage for breast reconstructive surgery in any health insurance plan that provides medical and surgical benefits for mastectomies.

If your plan provides medical and surgical benefits for mastectomies, and you are receiving benefits in connection with a mastectomy and elect to have breast reconstruction along with that mastectomy, your plan must provide, in a manner determined in consultation between you and the attending doctor, coverage for:

- All stages of reconstruction of the breast on which the mastectomy was performed.
- Surgery and reconstruction of the other breast to produce a symmetrical appearance.
- Treatment of physical complications of the mastectomy, including lymphedemas.
- Breast prostheses, which is an artificial form of a breast to help reconstruct its original form.

These benefits are provided to the same extent as any other illness under your coverage, subject to deductible and coinsurance. All other features and benefits of your plan remain the same and are not impacted by this notification. Refer to benefit materials for details on applicable deductibles and coinsurance.
